

## ADDING \$NBLU TOKEN IN METAMASK

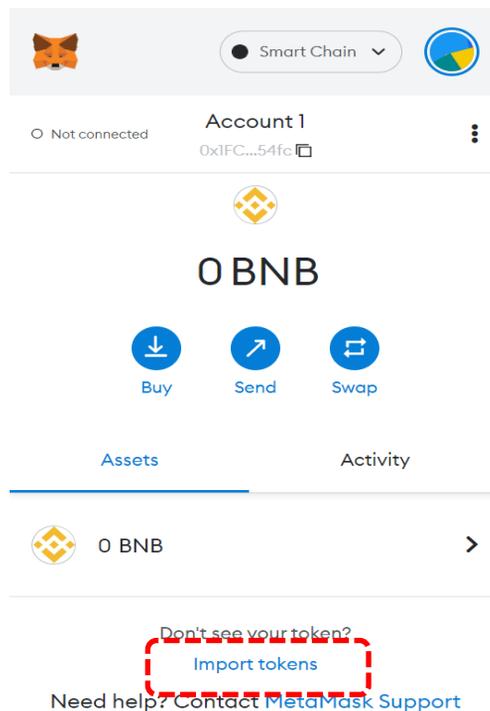

Step 1: Connect your Metamask wallet and select BSC Mainnet.

(Refer to RED Box. Network name may be different depending on how it was added.)

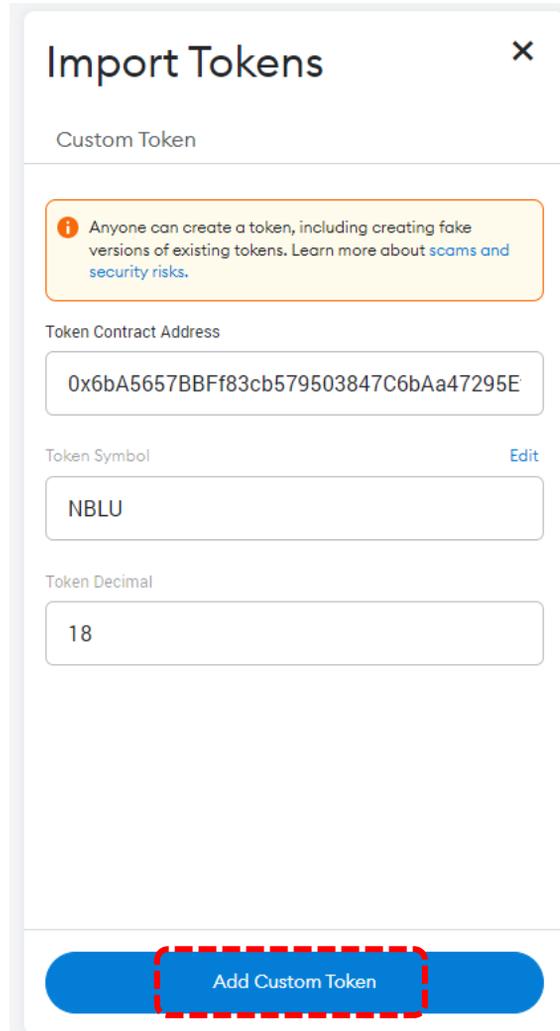

Step 2: Click "Import Tokens"

Step 3: Please enter the Token Contract Address shown below. Once entered, Token Symbol(NBLU) & Token Decimal(18) will populate automatically. Click “Add Custom Token” to complete adding NBLU in Metamask.

**Token Contract Address : 0x6bA5657BBFf83cb579503847C6bAa47295Ef79a8**

The image shows a screenshot of the 'Import Tokens' dialog in Metamask. The dialog is titled 'Import Tokens' and has a close button (X) in the top right corner. Below the title, it says 'Custom Token'. There is a warning box with an information icon (i) and the text: 'Anyone can create a token, including creating fake versions of existing tokens. Learn more about [scams and security risks](#).' Below the warning box, there are three input fields: 'Token Contract Address' with the value '0x6bA5657BBFf83cb579503847C6bAa47295E', 'Token Symbol' with the value 'NBLU' and an 'Edit' link to its right, and 'Token Decimal' with the value '18'. At the bottom of the dialog, there is a blue button labeled 'Add Custom Token' which is highlighted with a red dashed border.

Congratulations! Now \$NBLU has been added to your Metamask wallet.
